

# RAIN COAT

For walks in the rain – no more wet smelly fur!

\* can be paired with our TUMMY WARMER

## FUNCTIONAL FORM

Designed with your dog's body in mind – the Rain coat is fitted around the rear and hips with our unique contoured back that results in maximum water run off and coverage. The under-part is unobstructed to accommodate your canine's bodily function and to prevent urine/fecal stain.

## LEASH OPENING

There is an opening to slip the leash through for easy attaching to the collar for those wet walks.

## QUALITY MATERIAL

Our Rain coat is made with durable Ultrex (water proof) and lined completely with a light breathable mesh lining to prevent your dog from being in direct contact with the rubber material. These high quality materials keep your dog dry and comfortable. The extra stitching allows the coat to be used on a daily basis and ensure longevity of the coat. It is machine washable for your convenience.

## REFLECTIVE PATCH

We place a reflective patch for high visibility in the back of our Rain coat as extra protection for you and your dog during walks in the rain.

## ATTACHED HOOD

This attached hood provides protection for the head and neck region from rain. The complete protection will allow your dog to go outside to relieve itself during rainy season.

## COUNTERBALANCE BACK STRAP

This unique counterbalance back strap is strategically placed to keep our coats from shifting as your dog moves resulting in maximum coverage, protection and comfort. The position of the strap allows your dog full range of motion with comfort.

## LONG VELCRO BAND STRAP

Our raincoat is secured with this Velcro band strap that pulls the sides close together to cover the stomach area and is ideal to get a snug fit for coverage. The narrow shape of the Velcro strap results in maximum water run off. The Velcro band allows the coat to be easily placed on / taken off your dog.

## PLEATED FRONT

This pleated front of the chest region allows more room for forward motion accommodating your dog's long strides.

**MACHINE WASHABLE**
