

SPRING/FALL COAT

For walks in the spring or fall (65° F - 40° F) – keep your dog comfortable!

* can be paired with our TUMMY WARMER

FUNCTIONAL FORM

Designed with your dog's body in mind – the Spring/Fall coat is fitted around the rear and hips with our unique contoured back that provides maximum coverage for their bare bottom with no restriction on movement and comfort. The under-part is unobstructed to accommodate your dog's bodily function and to prevent urine/fecal stain.

QUALITY MATERIAL

Our Spring/Fall coat is made with durable, stain resistant, U.S. made 200 weight Polar Fleece. The extremely soft and thick fleece keeps your dog warm and comfortable in this lightweight coat. The extra stitching allows the coat to be used on a daily basis and ensures longevity of the coat. The Spring/Fall coat is also machine washable for your convenience.

COUNTERBALANCE BACK STRAP

This unique counterbalance back strap is strategically placed to keep our coat from shifting as your dog moves resulting in maximum coverage, protection and comfort. The position of the strap allows your dog full range of motion with comfort.

LONG VELCRO BAND STRAP

Our Spring/Fall coat is secured with this Velcro band strap that pulls the sides close together to cover the stomach area and is ideal to get a snug fit for warmth. The narrow shape of the Velcro strap results in a lightweight coat with no restriction on motion. The Velcro band allows the coat to be easily placed on / taken off your dog.

MACHINE WASHABLE
